Barrington, IL 60010

Dear International Decorators, Inc. Team,

Congratulations to International Decorators, Inc. for being internationally recognized as one of the safest contractors in your industry for 2017. This international recognition as a CREST Top 3 Finalist showcases your continued commitment to the wellbeing of your employees and industry. Well done!

I would like to personally commend you for seeing the value in cultivating a safety culture at your company. The mission of the CREST (Contractors Recognizing Excellence in Safety Training) Awards is ultimately to recognize those contractors who go above and beyond to protect their employees and the people around them. International Decorators, Inc. is clearly committed to maintaining an excellent safety program.

As a Top 3 Finalist, you are an internationally-recognized leader in construction health and safety. This recognition is a culmination of all the hard work and dedication International Decorators, Inc. has invested to protect your employees and the people around them. Industry-leading contractors such as yourself, who understand how important it is to make sure your workers come home the same as they left, are one of the many reasons I believe our industry's future is bright.

You can now leverage this designation to further prove to your customers that your company has an excellent, *internationally-recognized*, safety program. This designation is another way to help yourself stand out from your competition. We encourage you to make use out of the CREST Top 3 Finalist certificate provided, and we hope you will proudly display it in your office. The fact that you were a finalist for an international safety award would also be something your insurance company would be interested in.

Congratulations again; your recognition is well-earned. Thank you for protecting your workers and industry.

Respectfully,
